ECO & VEGGIE

Time to enjoy, time to celebrate life, time to relax,
time to feel the silence, time to be...

We offer you a stay on a quiet eco-farm in a beautiful agricultural environment.
We live with a few cats, chicken and sheep on 2.5 acres of land.
We can offer you organic breakfast and meals.

Our village Bertrée is a picturesque little village and is part of Hannut.
It is in a region called Haspengouw, which is an area of rich land
used for agriculture and fruit trees.

During your stay you have the chance to go hiking or biking.
Maps of hiking and biking trails as well as bikes are available (GR 579 - GR 564 - Ravel
127a - national park burdinale & mehaigne).

Towns such as Liège, Namur, Huy, Leuven, Hasselt, Tienen, St Truiden, Tongeren
are all within a half hour drive.

Currently we have two rooms available.

We renovated in full respect for the energy of the ancient farm.
We used ecological materials such as clay-straw, wood. We did this with an artistic
finishing touch using the colors of nature. The result is a feeling of nature and silence.

Welcome !

The big garret

Our totally ecological renovated big garret has an enormous view. From early in the morning till late at night you can enjoy the sunshine. There is a big area to sleep and watch movies on dvd or video. Another part is the living room area (with a sofa for 2 more people) which has lots of books, games and information about the local area (maps hike/bike). Up to 4 people can stay here (2 double beds).

The way we renovated and choose our furniture, respects the original character of this farm. Materials such as straw-clay, natural painting, traditional bricks (homemade) give a relaxing feeling of warmth and homeliness.

We took our time to renovate with an eye for finishing touches and little details.
This place feels like home...
